About US

THE COMPANY

Founded in 2012, LiVi Logistics declared as supply chain solution company. We are offering services to meet any challenges on digitizing market and complexing lack of access in Indonesia.

Our cores are Simpli Storage - warehousing and Simpli Delivery - transporting. Our cores are driven by dedicated resources, modern equipment & facilities, and outstanding management system. We continuously develop our competencies on simplifying solutions. Through by years, we always listened and understood our customers' needs on pursuing the excellent performed solution. To maintain loyalty of our customers, we only deliver the best comprehensive solution.

At LiVi Logistics, we commit to fasten customer's business lane on the right track. Our services exceed customers to the next level of competition. We are rejuvenating the supply chain.

VISION

To be the leading innovative company on integrated supply chain with local values.

MISSION

- To deliver passionate services to improve customer's performance.
- To state customer's objective consistently through establishing trust, mutual respect, and integrity.
- To deliver sustainable value to stakeholders, employees, customers, and the environment

VALUES

- Treating people with respect
- Recognize process of creativity
- Complying with high ethical standards
- Co-working as a team to achieve a common goal
- Serving our customer with the best of our ability
- Performing excellence, accountability and responsibility in every role

BUSINESS CORES

- **SimpLi Storage**; performed service on warehousing stock of our customer assets.
- **SimpLi Delivery**; focused service on transporting goods.

WAREHOUSE Service

SimpLi Storage is a performed service on warehousing stock of our customer assets. Our concern is on simplifying accuracy and traceability of level stock maintenance. Our Warehouse Management System (WMS) enables us to closely monitor millions of stock keeping units (SKU) to avoid any discrepancy and dead stock.

Totaled more than 8,000 m², our warehouses are located on strategic district on Tangerang. Our locations have an close access to Janger Highway which provide direct connection to International Airport - Soekarno Hatta, International Seaport - Tanjung Priok, and National Highway.

Powered by dedicated manpower, modern material handling equipment and facilities, and in-house IT team support, enhance us to manage storage of any stock of asset; such as raw material, retail, fragile items, to high-risk and hazardous materials, and high-security items.

- **REGULAR STORAGE**

Regular Storage is a sharing warehouse service; storage capacity start at 5 m³ to 500 m³, placed on wooden pallet, using selective pallet racking at the same location-building and side by side with other customer goods. We provide rental period per month, per quarter, semester and per year.

- **DEDICATED STORAGE**

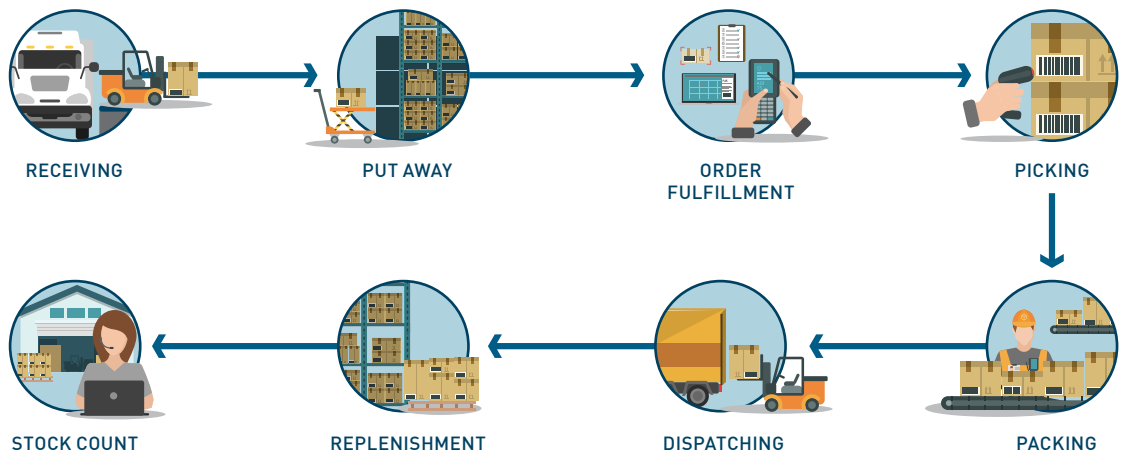

Dedicated Storage is a private warehouse service; based on special requirements, full-customized warehouse, warehouse management system, exclusive manpower and facility requirements. We will provide area and rental period adjustment to customer needs.
